CASE REPORT/FACULTY AWARD

applies when the IUS is located outside the uterine cavity is not known. It is possible that systemic absorption of levonorgestrel may be greater in this scenario and the Mirena IUS may continue to exert its effects in a similar way to levonorgestrel contraceptive pills and subdermal implants. It would have been interesting to know the blood level of levonorgestrel in the present case.

The outcome of this case report poses the interesting question of whether an extrauterine Mirena IUS can provide contraception.

The 4-0-8 Sheffield Fund

In 2001 the 4-0-8 Young People’s Consultation Centre Ltd, Sheffield, UK made a significant donation to the Faculty of Family Planning and Reproductive Health Care (FFPRHC) for the purpose of funding training for health care professionals who had limited funding for attending training meetings. Any person working in the field of reproductive and sexual health care within the UK may apply. Approximately £1000 will be allocated every 3 months, either as a single award or divided between the successful applicants.

For details on how to apply to the 4-0-8 Sheffield Fund visit the Faculty website at www.ffprhc.org.uk. For an application form apply to: Chair of the Education Committee, Faculty of Family Planning and Reproductive Health Care of the RCOG, 27 Sussex Place, Regent’s Park, London NW1 4RG, UK. Closing date: 6 months prior to the event for which funding is applied for.
