JOURNAL POLICY ON COMMERCIAL ADVERTISING

BMJ Group and the Faculty of Sexual and Reproductive Healthcare do not allow advertising or sponsorship to influence in any way the decisions made on editorial content. Decisions on the positioning of advertisements are made independently of decisions made in the editorial departments on the content of a specific issue. The unlikely event of an advertisement for a product appearing next to an article about the same product will be entirely coincidental and should not be construed as anything else.

Editorial material will not be influenced by advertising. BMJ Group does not publish material to accompany advertising and does not sell advertising in relation to particular articles. The Group's advertising sales teams have no knowledge of particular articles that will appear in any BMJ Group publication.

Acceptance of advertising does not imply endorsement.
