BMJ Sexual & Reproductive Health is a multiprofessional journal that promotes sexual and reproductive health and wellbeing, and best contraceptive practice, worldwide. It publishes research, debate and comment to inform policy and practice, and recognises the importance of professional-patient partnership. It is the official journal of the Faculty of Sexual & Reproductive Healthcare.

Guidelines for Authors and Reviewers
Full instructions are available online at http://srh.bmj.com/ifora. Articles must be submitted electronically at http://mc.manuscriptcentral.com/bmjSRH. Authors retain copyright but are required to grant BMJ SRH an exclusive license to publish.

Impact factor: 2.027

Journal Policy on Commercial Advertising
BMJ Group and the Faculty of Sexual & Reproductive Healthcare do not allow advertising or sponsorship to influence in any way the decisions made on editorial content. Decisions on the positioning of advertisements are made independently of decisions made in the editorial departments on the content of a specific issue. The unlikely event of an advertisement for a product appearing next to an article about the same product will be entirely coincidental and should not be construed as anything else.

Editorial material will not be influenced by advertising. BMJ Group does not publish material to accompany advertising and does not sell advertising in relation to particular articles. The Group’s advertising sales teams have no knowledge of particular articles that will appear in any BMJ Group publication.

Acceptance of advertising does not imply endorsement.

BMJ SRH Online Archive
The back archive of BMJ SRH dating back to 2000 is available at http://srh.bmj.com. Articles that are less than 2 years old require a subscription to access them. The remainder of the archive is free to access, although registration may be required.
